ES&E

2022
DIGITAL TRANSFORMATION SUMMIT

What is Digital Transformation?
There is a lot of information about this topic, but the name can be misleading.

How can it help you and your manufacturing?	What are some of the pitfalls to avoid?	How can you have a successful implementation?

Join us on July 28th from 9:00 till 3:00 as we explore the Digital Transformation with our keynote speaker **Peter Forney of Rovisys**. Peter has over 15 years of experience in the industry and a Masters in Computer & Information Technology focused on Project Management, IIOT, and Big Data from Purdue University.

We will also have representatives from the following companies. They will address how their products have helped provide digital transformation solutions.

- Stratus - ZTC Edge computing solutions
- PTC - Kepware and data collection
- Ocean Data Systems Dream Report - Data visualization
- Softing - Data collection using tManager
- Rockwell - Rockwell data analytics
