

ES&E SERVICES & SOLUTIONS

SUPPLY CHAIN CONCERNS?

Let ES&E ease supply chain uncertainty with an Installed Base Evaluation (IBE) to identify your plant's current and future risks.

The logo for ES&E, featuring the letters 'ES&E' in a bold, white, sans-serif font. The ampersand is smaller and positioned between the 'S' and 'E'. The logo is set against a dark blue rectangular background with a thin white border.

Are you experiencing long lead times, shipment date changes, obsolete parts, or lack of critical spares? Then it's time for an ES&E IBE to help address your supply chain issues.

ES&E SERVICES & SOLUTIONS INSTALLED BASE EVALUATION

After ES&E's site and data assessment, you will receive an actionable, easy-to-interpret report that includes

- » A comprehensive plant analysis and hierarchy map
- » Lifecycle asset inventory and analysis – from (soon-to-be) obsolete parts to excess inventory
- » Site-to-panel downtime risk profile snapshots
- » Recommendations to improve plant performance
- » A plan for ongoing plant monitoring and support

With insights from your Installed Base Evaluation™, you can manage costs and improve productivity by

Identifying and managing risks

Increasing uptime

Improving your return on assets

Optimizing plant operations

Creating a modernization budget
